KAINANTU RESOURCES LTD.

Notes to the Interim Condensed Consolidated Financial Statements

March 31, 2022

(Presented in thousands of United States Dollars, except for per share amounts; actual share numbers presented)

1. NATURE OF BUSINESS

Kainantu Resources Ltd. ("KRL" or the "Company") was incorporated under the Business Corporations Act (British Columbia) on July 4, 2018 and is listed on the TSX Venture Exchange (the "TSX-V") on the Frankfurt Stock Exchange ("FSE") under the symbol "6JO". The principal office is #17-00 16 Collyer Quay, Singapore 049318.

The Company completed the acquisition of Kainantu Resources Pte. Ltd. ("Kainantu") (the "Transaction") on December 3, 2020. The Transaction resulted in a reverse takeover of the Company by the shareholders of Kainantu.

Kainantu was incorporated in Singapore on August 21, 2019 and incorporated a subsidiary Kainantu Resources Limited, on February 1, 2020 for the purpose of acquiring mineral exploration properties in Papua New Guinea ("PNG"). Following the acquisition of the Kainantu exploration properties and associated assets, Kainantu has focused on mineral exploration in Papua New Guinea.

Pursuant to the Transaction, the Company issued an aggregate of 20,000,000 shares to the founding shareholders of Kainantu ("Kainantu Shares"), in addition the Company will issue 5,000,000 common shares to the founding holders of Kainantu, pro rata in accordance with their holdings of Kainantu Shares, as additional consideration at such time as the Company has established and completed a technical report in compliance with National Instrument 43-101 - Standards of Disclosure for Mineral Projects ("NI 43-101") supporting an inferred resource (as such term is defined in NI 43-101).

The Company issued 20,500,000 common shares and 10,250,000 share purchase warrants of the Company as part of financing in conjunction with the Transaction for total proceeds of Canadian Dollars ("CAD") \$4.1 million.

Together the Company, Kainantu and Kainantu Resources Limited form a wholly owned consolidated group ("the Group"). Since the Transaction resulted in the shareholders of Kainantu obtaining control of the Company, it constituted a reverse acquisition for accounting purposes with Kainantu being identified as the accounting acquirer. The net assets of the Company at the date of the reverse acquisition were deemed to have been acquired by Kainantu.

During the period ended March 31, 2022, the Company completed the private placement outlined in Note 7 issuing 15,387,492 common shares and 15,387,492 share purchase warrants of the Company and received subscription funds totaling CAD \$2.77 million.

2. REVERSE TAKEOVER BY KAINANTU

As described above the Company and Kainantu completed the Transaction which constituted a reverse acquisition. The shareholders of Kainantu obtained control of the Company and the combined entity, by obtaining control of the voting power of the Company and the resulting power to govern its financial and operating policies.

For accounting purposes, Kainantu has been treated as the accounting parent company (legal subsidiary) and the Company has been treated as the accounting subsidiary (legal parent) in these consolidated financial statements.

KAINANTU RESOURCES LTD.

Notes to the Interim Condensed Consolidated Financial Statements

March 31, 2022

(Presented in thousands of United States Dollars, except for per share amounts; actual share numbers presented)

2. REVERSE TAKEOVER BY KAINANTU (Continued)

The Transaction was accounted for as a reverse acquisition in accordance with the guidance provided in IFRS 2, Share-based Payments and IFRS 3, Business Combinations. As the Company did not qualify as a business according to the definition in IFRS 3, the reverse acquisition did not constitute a business combination, rather it was treated as an issuance of shares by Kainantu for the net assets of the Company and to obtain a listing status.

Accordingly, no goodwill or intangible assets were recorded with respect to the Transaction. As Kainantu was deemed to be the acquirer for accounting purposes, its assets, liabilities and operations since incorporation are included in these consolidated financial statements at their historical carrying value. The Company's results of operations have been included from December 3, 2020.

For the acquisition of the Company by Kainantu, the consideration received is deemed to be the fair value of the net assets of the Company which on December 3, 2020 were as follows:

Purchase Price		
Shares acquired by Kainantu vendors	\$	103
Fair value of shares retained by Company shareholders		325
Total Purchase Price		428
Net Assets Acquired		
Current Assets		
Cash		126
Accounts Receivable		1
Current Liabilities		
Accounts Payable		(35)
Net Identifiable Assets		92
Listing expense	\$	336

The fair value per share acquired by the Kainantu vendors reflects the cash consideration price of CAD \$0.07 and the shares retained by the shareholders of PLB based on the capital raising price of CAD \$0.20. The cash consideration paid by Kainantu vendors was recorded as capital contributions within reserves.

As a result of the Company not meeting the definition of a business under IFRS 3, a listing expense of \$336 has been recorded. This represents the excess of the purchase price over the fair value of the assets and liabilities acquired and is characterised as a capital raising cost.

3. BASIS OF PREPARATION

a. Statement of compliance

These interim consolidated financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting and based on principles of International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). These financial statements should be read in conjunction with the annual audited consolidated financial statements for the period ended December 31, 2021, which include all of the significant accounting policies, and have been prepared in accordance with the same methods of application.

These interim consolidated financial statements were approved by the board of directors on May 27, 2022.

b. Basis of measurement

These consolidated financial statements have been prepared on a historical cost basis, except for certain financial instruments which have been measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

c. Continuance of Operations

These interim condensed consolidated financial statements are prepared on a going concern basis, which assumes that the Group will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from the carrying values shown and these consolidated financial statements do not include adjustments that would be necessary if the going concern assumption is not appropriate.

The Group’s continuing operations and its ability to meet mineral property and other commitments are dependent upon the ability of the Group to continue to raise additional equity or debt financing and to seek joint venture partners. Although the Group has been successful at raising capital in the past, there is no assurance that the Group will be able to raise adequate financing on terms that are acceptable to the Group, if at all. Based on its current plans, budgeted expenditures, and cash requirements, management believes the Group would need to raise additional capital to accomplish its business objectives thereafter.

d. Significant Accounting Estimates and Judgments

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates and exercise judgement in applying the Group’s policies. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

3. BASIS OF PREPARATION (Continued)

e. Change in fiscal year-end

During the thirteen-month period ended December 31, 2021, the Company changed its fiscal year end to December 31 from November 30. The change in year end resulted in the Company filing a one-time thirteen-month transition period December 1, 2020 to December 31, 2021. Subsequent to the transition year, the Company's year end will cover the period January 1 to December 31.

f. Presentation currency

These consolidated financial statements are presented in thousands of United States Dollars ("USD") which differs from the Company's functional currency Canadian Dollars. Functional currencies of each entity are set out below.

Foreign currencies

Transactions in foreign currencies are initially recorded by each entity in the Group at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. All differences are taken to profit or loss.

Non-monetary items measured at historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in profit or loss or other comprehensive income / (loss) are also recognized in profit or loss or other comprehensive income / (loss), respectively).

Translation of foreign operations

The financial position of the subsidiary, whose functional currency is different from the reporting currency, are translated as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that financial period end;
- income and expenses are translated at average exchange rates for the period, unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions;
- equity transactions are translated using the exchange rate at the date of the transactions; and
- all resulting exchange differences are recognized in other comprehensive income and reported as a separate component of equity.

3. BASIS OF PREPARATION (Continued)

g. Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiary. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. All intra-group assets and liabilities, revenues, expenses and cash flows relating to intra-group transactions are eliminated.

Net Book Value

December 31, 2021	12	70	43	269	394
March 31, 2022	13	74	36	269	392

Depreciation is capitalized to exploration and evaluation assets. During the period ended December 31, 2021 part of Construction in Progress was disposed for the original purchase price.

6. EXPLORATION AND EVALUATION ASSETS

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many exploration and evaluation assets. The Group has investigated title to all of its exploration and evaluation assets and, to the best of its knowledge, title to all of its assets are in good standing.

7. SHARE CAPITAL (Continued)

The Company also issued 327,120 warrants with a value of \$47 to certain finders. Each warrant entitles the holder to acquire a common share of the Company at an exercise price of CAD \$0.36 per common share until January 21, 2025.

During the prior period, on December 2, 2020 the Company issued 20,500,000 common shares and 10,250,000 share purchase warrants for total proceeds of CAD \$1.7 million. Each warrant entitles the holder to acquire a common share of the Company at an exercise price of CAD \$0.40 per common share until December 3, 2023.

In addition, the Company will issue 5,000,000 common shares to the founding holders of Kainantu, pro rata in accordance with their holdings of Kainantu Shares, as additional consideration at such time as the Company has established and completed a technical report in compliance with NI 43-101 supporting an inferred resource (as such term is defined in NI 43-101).

The Company also issued:

- 572,400 common shares and 286,200 attaching warrants to certain finders, each warrant entitles the holder to acquire a common share of the Company at an exercise price of CAD \$0.40 per common share until December 3, 2023;
- 437,000 warrants with a value of \$33 to certain finders, each warrant entitles the holder to acquire a common share of the Company at an exercise price of CAD \$0.20 per common share until December 3, 2023;
- 763,700 warrants with a value of \$57 to certain finders, each warrant entitles the holder to acquire a common share of the Company at an exercise price of CAD \$0.20 per common share until December 3, 2023; and
